# Evaluation is the gate at every step of AI adoption

AI Eval Corporation is a certified SDVOSB. It provides independent AI test and evaluation for the Department of War and the Intelligence Community, and designs the check at each transition on the Enterprise AI Adoption Curve. It is SAM.gov registered and Tradewinds approved.

## CORE SERVICES

SIX EVALUATION GATES | ENTERPRISE AI ADOPTION CURVE

**GATE 1**
**Mission metrics before seats**
Write the mission metric before anyone buys a model.

**GATE 2**
**Independent quality measurement**
AI test and evaluation plus verification and validation after seats are in place.

**GATE 3**
**Right-sizing log audits**
Audit API and gateway logs by task type, reasoning demand, and the cost of being wrong.

**GATE 4**
**Workflow and agent harnesses**
Harnesses for structured workflows and agent loops, including the router.

**GATE 5**
**DoW Bench + SLM leaderboard**
Small-model evaluation, including the Department of War leaderboard.

**GATE 6**
**ATO-aware continuous T&E**
Ongoing T&E, regression suites, and authorization-aware design after fielding.

## DIFFERENTIATORS

**1 The evaluation gate**
Evaluation is the gate at every step of AI adoption. The test is designed at each transition.

**2 Independent findings**
Findings on a system the company did not build stand on their own. No third-party platforms are resold, and no vendor referral fees are taken.

**3 Before the build**
Metrics, test data, and acceptance criteria are set before development begins.

**4 Defensible evidence**
Acquisition leaders get risk characterizations, recommendations, and go or no-go assessments tied to the mission.

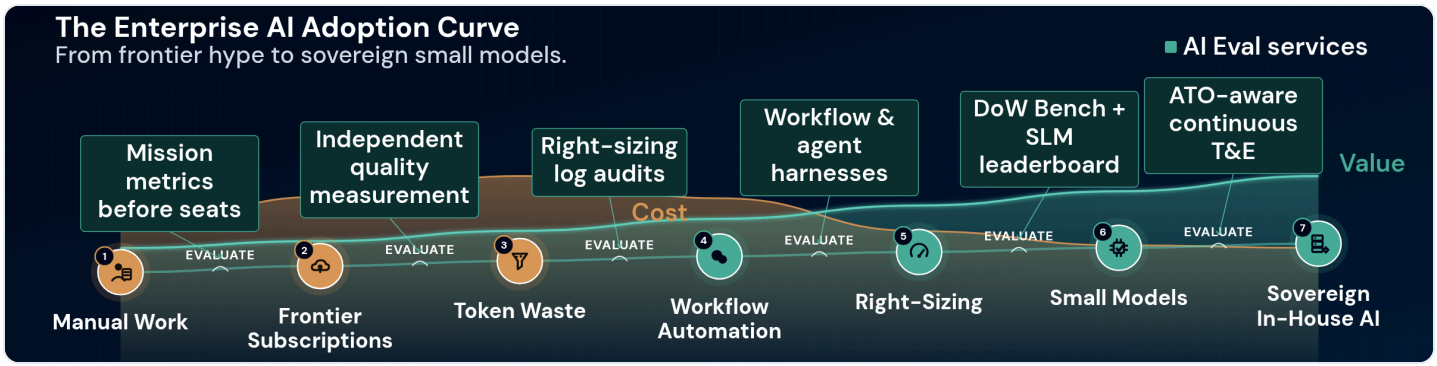

## RELEVANT EXPERIENCE

- **Former Project Maven.** T&E program manager for the Algorithmic Warfare Cross-Functional Team, all lines of effort, 2019 to 2023. Maven T&E lead for the Department of War, 2023 to present.
- **Rapid Test and Evaluation Cell.** Test and evaluation of AI systems for the Department of War.
- **Army Research Laboratory.** Tested fielded sensor and imagery AI, 2007 to 2019.
- **AI Eval Corporation.** Prototypes speech-to-structured-record pipelines, course-of-action planning tools, and offline AI packages for air-gapped networks, plus the public Department of War small-model leaderboard at aieval.org/leaderboard.

## LEADERSHIP

### Scott Mastin

Scott Mastin leads AI Eval Corp. He manages AI test and evaluation programs for the Pentagon and has worked in AI test and evaluation since 2007.
